

SMAARTsheet Management Analytics & Risk Tool (SMAART)

Smartsheet is the enterprise platform for dynamic work. A leading cloud-based platform for work management, Smartsheet empowers organizations and teams to dynamically plan, execute, and report on work at scale, resulting in more efficient processes, innovative solutions, and better business outcomes.

Today over 90% of Fortune 100 companies and over 75% of Fortune 500 companies rely on the secure, scalable Smartsheet platform to connect your entire enterprise. The single Smartsheet platform gives people a solution flexible enough to adapt to the changing needs of dynamic work across a broad array of departments and use cases.

Manage projects from start to finish

Keep your finger on the pulse of your company with an easy to view, informative, Master Contract Data Dashboard and a Portfolio Dashboard. Enhance workforce planning by tracking resources, contract renewal dates, option years, and periods of performance. Your leadership can see a current a high-level view of the health, risk factors and progress of all projects and programs.

Keep your program on track and your customers informed with dedicated dashboards for each. Program managers have real-time information on key indicators of program success such as deliverables, budget, risk, and the ability to manage scheduling all in one place with an integrated master schedule. Improve client satisfaction by providing customers with their own, dedicated dashboard delivering high-level views on the progress of their project.

Your vehicle for digital transformation

With the Data Entry Form, we've created simple-to-use forms that capitalize on standardized fields to ensure consistency and eliminate error. We've built conditional logic that allows you to see only relevant fields – preventing confusion or misentry of information.

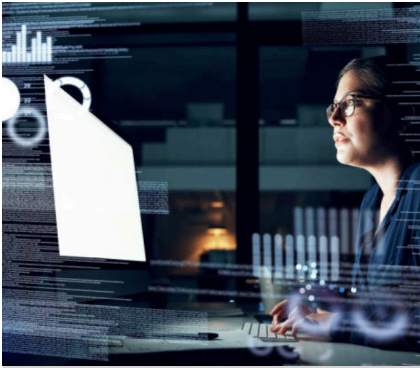

Collaborate

Domenix has developed this system to structure workflow – letting everyone know exactly what needs to be completed next and how to accomplish those tasks. With Domenix SMAART Platform you can populate numerous sheets and fields with one simple entry. Never miss a due date, meeting, or deliverable by receiving friendly reminders of upcoming activities

Report Builder: no more taxing report creation

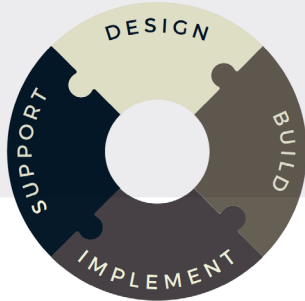

Keep track of approval requests by simply submitting a form and monitoring its progress. No more potential for losing track of requests sent through email. With many built-in notifications and flags, you can stay on top of potential program risks and concerns allowing more time for you to focus on managing the project and pleasing the customer.

Eliminate time spent on re-creating reports and standardize reporting frequency, formats, and desired information with automated, reporting and dashboard presentation.

We build your SMAART solution around you

- **Design** – define current workflows and develop standardized processes
- **Build** – create individualized reports, forms and integrations, automated workflows, dashboards - user-defined for your business (eg. C-Level, client, and management levels)
- **Implement** – training and support

- Portfolio dashboard to track all projects
- Robust project management
- Cost plus, Time and Materials (T&M) and fixed price tracking
- Risk and deliverable tracking
- User-definable dashboards
- Scalable and customizable for company needs
- Built to be the common hub with capabilities to tie in CRM systems

SMAART Support

We meet you where you are to get you where you want to go

Whether you need a simple build or a complete overhaul, we are here to support your vision. We work with you to define your current workflows, identify gaps, assess areas for improvement, pinpoint pain points, and ascertain duplicative processes/ documentation.

Our goal is to help your company standardize consistent processes, streamline efficiencies, and improve organizational transparency.

Are you already embedded in SMAARTsheet, but wonder if there is a way to do it better? We can help there, too! You are not in this alone! We are also happy to help support your existing processes.

“SMAART is not just SMAART ... it’s Brilliant. Domenix built a comprehensive, scalable program management solution, complete with template sets to save us time and increase productivity and efficiency.” — Vysnova
